Of the ten descriptions of statements of municipal statistics described in the margin at present in use was proposed to do away with forms 1 & 2 as being superfluous and to open 3 fresh columns in statement D and to prescribe a new statement which should afford certain information that is wanting in the existing forms

2. Comm. of Mundydroog was requested & obtain and submit the opinions of the Dr. Comm. & the President Mun.l Board Bangalore, together with his own views on these proposals.

3. From the reply received all the proposals appear to be generally acquiesced in excepting the one referring to the adoption of the new form E which Colonel Pearse and Dr Orr agree in considering unnecessary & be unnecessary on the ground that

information
required to be supplied
by it is already forth
coming in appendices
A & C. This consi
deration however
had not been

Office in proposing
the new form which
was intended to
furnish the data
needed by District

Officers in the com

appendices which,

required to be pre-
pared & submitted
for each petty Mu-
nicipality separately

The proposals detailed in the opening para of this order should therefore be adopted in their integrity. The alteration suggested in form E by the Dy. Comr. of Bangalore would have the effect of rendering the headings of cols: 8 & 10 toward different from the corresponding headings in the appendices, which seems undesirable.

Nundydroog Commissioner's letter No 193 dated 17th September 1874.

No. 7620—Rev. 174, dated 21st January 1875.

Order thereon.—Of the ten descriptions of Statements of Municipal Statistics described in the margin at present in use, it was proposed to do away with Forms 1 and 2 as being superfluous and to open 3 fresh columns in Statement D and to prescribe a new statement which should afford certain information that is wanting in the existing Forms.

2.	,,	B.	6.	,,	B.	9. ,,	2.
3.	,,	C.	7.	,,	C.	10. ,,	3.
4.	,,	D.					

2. The Commissioner of Nundydroog was requested to obtain and submit the opinions of the Deputy Commissioner and th President, Municipal Board, Bangalore, together with his own views on these proposal

3. From the reply received all the proposals appear to be generally acquiesced in excepting the one referring to the adoption of the new Form E, which Colonel Pearse and Dr. Orr agree in considering to be unnecessary on the ground that the information required to be supplied by it is already forthcoming in Appendices A and C. This consideration, however, had not been overlooked by the Chief Commissioner in proposing the new form which was intended to furnish the data needed by District and Divisional Officers in the compilation of the said Appendices which, it must be remembered, are not required to be prepared and submitted for each petty Municipality separately. The proposals detailed in the opening para of this order should therefore be adopted in their integrity. The alteration suggested in Form B by the Deputy Commissioner of Bangalore would have the effect of rendering the headings of columns 8 and 10 different from the corresponding headings in the Appendices which seems undesirable.
